

MEDIA ADVISORY

WHAT: **Fibrominn, the nation's first poultry litter-fueled power plant, to open in Benson, Minnesota**

Governor Pawlenty and other officials will gather this week for the grand opening of Fibrominn, the first poultry litter-fueled power plant in the United States. Located in Benson, Minnesota, Fibrominn uses poultry litter and other agricultural biomass to produce enough electricity to serve 40,000 homes.

WHO:

- Governor Tim Pawlenty
- Rupert Fraser, founder of Fibrowatt LLC, the world's only experienced developer of power plants fueled by poultry litter
- State and local officials

WHEN:

Friday, October 12, 2007

11:30 a.m.: Luncheon

Noon: Program

12:30-2 p.m.: 30-minute plant tours in small groups

Please call Patty Dunn to confirm your participation in one of the tours.

WHERE:

Fibrominn

900 Industry Drive
Benson, Minnesota

From Minneapolis/St. Paul (approximate travel time: 3 hours)

- Take I-494 West to I-394 West.
- I-394 West will become US 12 West. Follow US 12 West to Benson.
- In downtown Benson, follow State Route 9 West through town. Stay on State Route 9 West for approximately two miles.
